The following is an examiner's statement of reasons for allowance: While EP 1,046,723 and JP 2000-239,806 are cited as "X" references of the European search report, neither reference is seen to disclose or teach the presently claimed subject matter, since they do not teach the present combination of values for average surface roughness (Ra) and maximum height (Ry), the present BA film on some of the projections between the grooves, or the present method of making a fuel cell separator, in which a hot-rolled steel sheet is annealed and pickled. Instead, EP 1,046,723 teaches a cooled and then cold-rolled sheet is annealed and pickled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Kalafut whose telephone number is 571-272-1286. The examiner can normally be reached on Mon-Fri 8:00 am-4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick J. Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
